

## **WORKSHOPS AND TRAINING AVAILABLE FOR YOUR PEOPLE**

### **BUDGET TRAINING - EXECUTIVE SUMMARY**

To create awareness around financial aspects of their personal life.

Spectrifin aims to educate and uplift those workers and employees who find that they are having cash flow struggles which adversely affects their productivity and stress levels in the workplace.

Spectrifin aims to teach people about the affordability and responsible nature of our lending model, the reduced risk and the simplicity of it when an emergency or crisis arises.

We discuss interest rates, economics, store account cards, service fees, hidden costs, money saving tips and more! Sessions will differ depending on the needs of the audience and the time constraints.

Our house hold budget training is tailored to employees with no or little financial background but ANYONE can participate and start a CONVERSATION about MONEY - a very important topic which impacts our daily lives! Money is in most things we do, OUR TIME IS MONEY, our resources are money, bad habits cost money, to live - we NEED money, so it is only fitting we should KNOW more about looking after it.

We focus on one-on-one, interaction and engagement; attendees receive material to write with, a sheet to go through and lots of information + tips and tricks - either flip-chart presentation or digital.

#### **Nitty Gritty:**

- **H o w ?** What? When? Where?
- **W e** (a team) come to you with a PowerPoint presentation
- **T o** commence on your desired date
- **N o** minimum staff preferably over 5

- **T h i s** can be during lunch hour/break or an arrangement with your staff

#### **Benefits for you and your staff:**

Investing in your staff

Social responsibility credits

Boosts morale and productivity

Employee benefit offering

### **WELLNESS IN THE WORKPLACE**

Spectrifin aims to uplift employees in the workplace by encouraging them to look at all aspects of their lives and enhancing what they can. We discuss wellness to generate ideas for life improvement. We cover emotional needs, health, psychological and physical wellbeing as well as touch on the power of positive thinking. We present this idea of POSITIVITY and suggest some methods to enhance those thoughts, which can help with our clients' needs when it comes to employee issues and problem solving. This will result in a new attitude towards money, work and co-workers. New attitude towards problems and problem-solving in the workplace. Less stress, conflict, tension and unhappiness. A positive work environment is a productive one!

\*We have a Water Wise workshop available for the cape as well as a Health and Fitness
